

Strong Winds/Waves Will Bring Impacts Sunday through Wednesday

Morehead City, NC
WEATHER FORECAST OFFICE

OVERVIEW

- Multiple days of strong north to northeast winds and large swell will produce coastal flooding and ocean overwash.

TIMING

- Sunday through Wednesday.

HAZARDS & IMPACTS

- Minor to locally moderate **ocean overwash** mainly north of Cape Hatteras could bring inundation of beachfront properties and impact travel on NC 12 around the times of high tides for several days.
- Significant **beach erosion** expected.
- Multiple days of strong north to northeast winds will lead to a prolonged minor **coastal flooding** threat mainly from Ocracoke to Down East Carteret County and along the lower Neuse River.
- Powerful surf and dangerous rip currents** can be expected mainly north of Cape Lookout.

NEXT BRIEFING

- Additional briefings will be sent as conditions warrant.
