

Potential Tornado Impacts

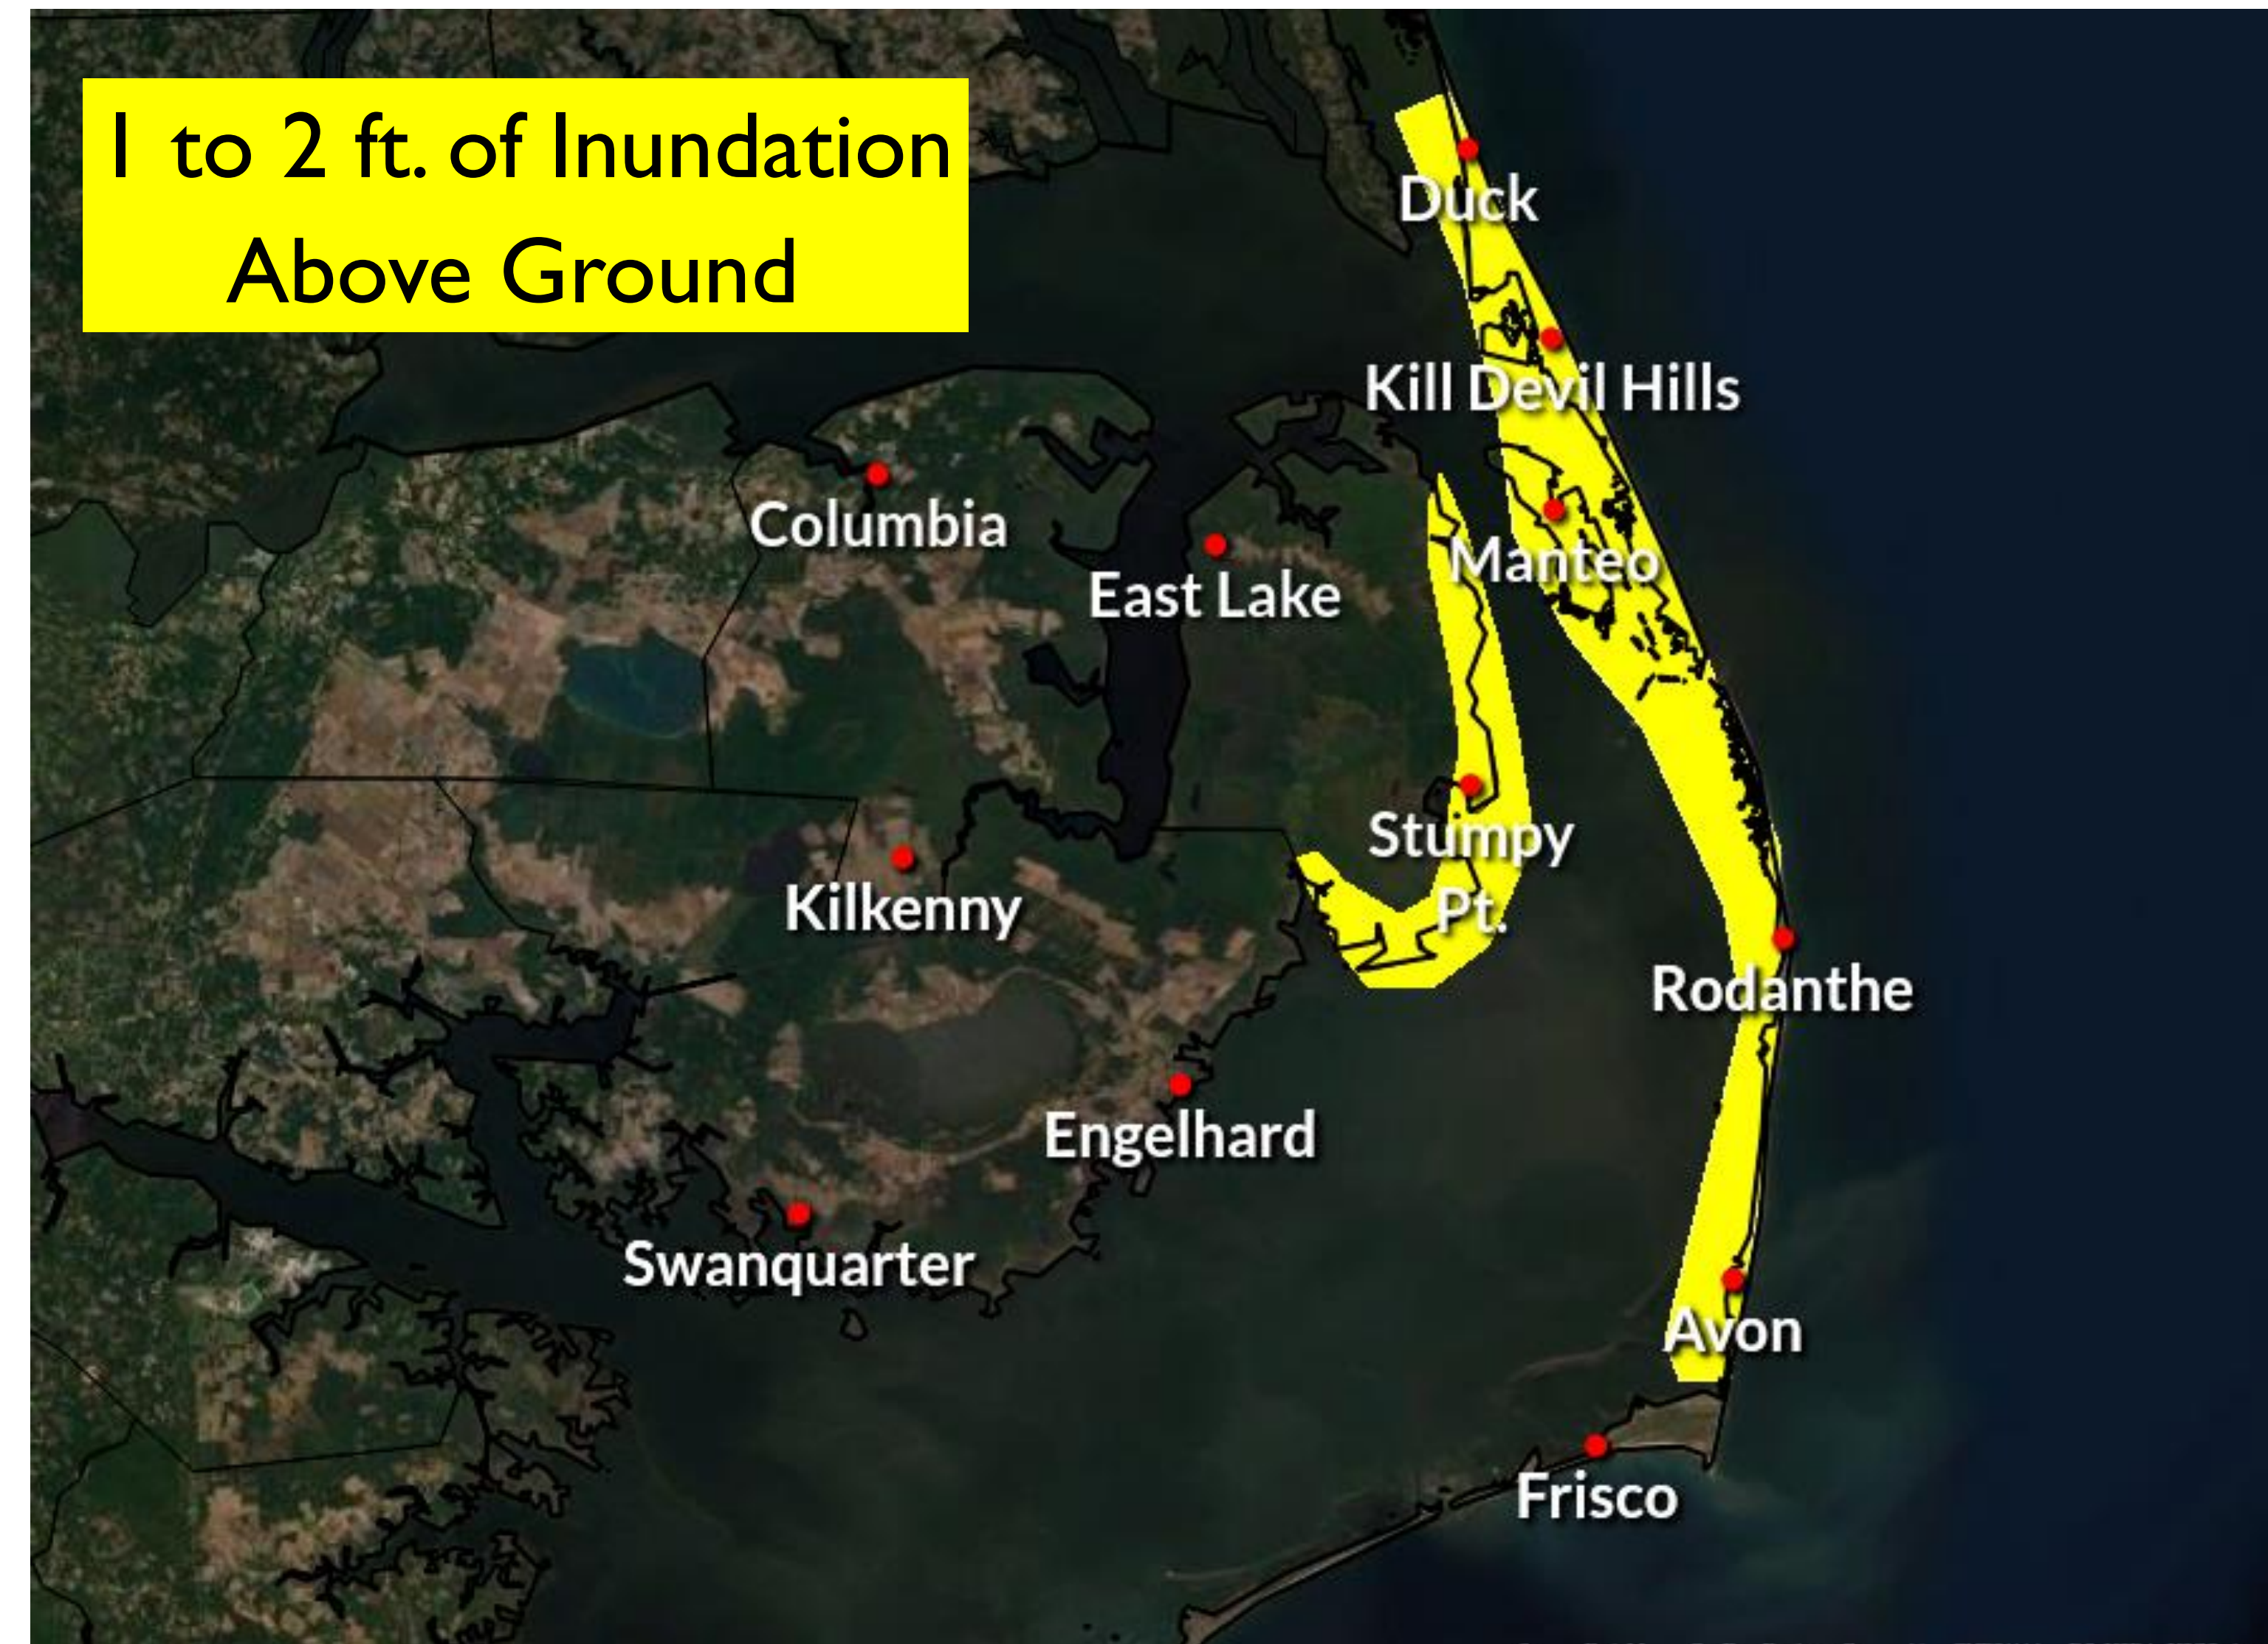

- A few tornadoes will be possible today. Additional showers and isolated storms this evening with gusty winds the main threat.
- Make sure you have multiple ways to receive warnings (Wireless Emergency Alerts, Broadcast TV & Radio, NOAA Weather Radio).
- Slight risk for damaging winds with any stronger storms that develop.

Minor Coastal Flooding Tonight through Saturday

1 to 2 ft. of Inundation
Above Ground

- **A Coastal Flood Advisory is in effect for soundside portions of the Outer Banks, from north of Buxton to Duck, and for Mainland Dare County.**
- **Inundation of 1 to 2 feet above ground will be possible in low-lying areas near shorelines and tidal waterways.**
- **Timing: Tonight through Saturday.**
