

# Thunderstorms Expected Tonight

## OVERVIEW

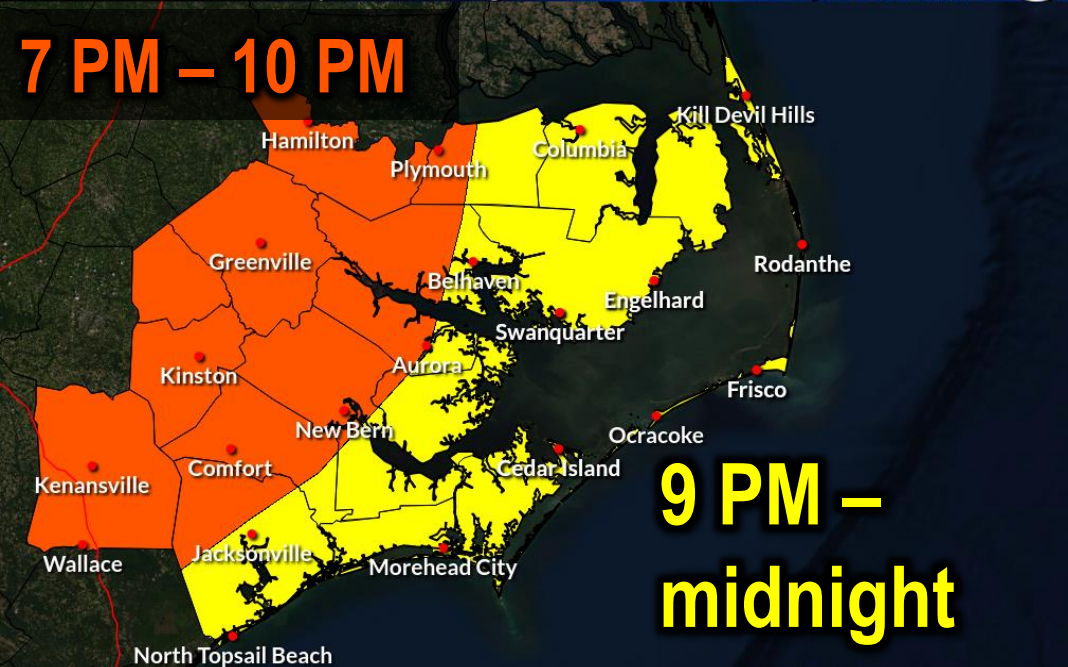

A strong cold front will impact Eastern North Carolina tonight with possible  
**Severe Thunderstorms.**

## Best Potential For Storms Tonight

Severe Weather Possible/Have A Way To Receive Warnings

Weather Forecast Office  
Newport/Morehead City, NC

Issued Aug 07, 2023 3:18 PM EDT

### TIMING

- **Severe Weather** – Tonight (see map to the left)

### HAZARDS & IMPACTS

- **Severe Weather** – Damaging wind is the main risk. Of note, **this will be a nighttime severe weather risk.** A tornado is also possible.

The greatest risk of severe weather is expected across the **ORANGE SHADED** area, with a decreasing risk closer to the coast.

### FORECAST CHALLENGES

A line of severe thunderstorms has **ALREADY** developed and will move into Eastern NC early tonight. The main forecast challenge is how far east into the area the severe weather risk will extend
